Brainy Bunch Homework Packet Week of May 2, 2016

1. Practice math facts.
2. Measure your sponge animal using at least one unit of measurement. Record your measurement(s) here:
3. Drop the sponge animal into warm or hot water. (**YOU MUST** have adult help if you use hot water!) Watch the capsule melt and the animal grow.
4. Wait 24 hours and measure your animal again. Record your measurement(s) here:
