*Flash cards

*Ask someone to give you math equations to solve mentally while riding in the car, waiting in a line, etc.

*Play addition war with regular playing cards. Each person draws 2 cards and adds them together. The person with the highest sum gets all the cards. Can be used for subtraction also.

*Roll a die twice and add (or subtract) the two numbers.

name _____ # _____ date _____

Pocket Day at Home

1. Collect data on the number of pockets each person in your family is wearing and record on the chart. (You can include other relatives by calling them.)

name	# of pockets

2. Calculate the total number of pockets your family is wearing. Write your answer in the circle.
