

Brainy Bunch Math Game Directions

Keep in your green math game folder at home.

Secret Number

Materials: paper and pencil

Players: minimum of 2

How to Play:

Step One:

Player 1 writes down their secret number and hides it from their opponent(s).

Step Two:

Player 1 gives their opponent 3 – 5 clues about their number.

Example clues for 734

1. 3 digits
2. hundreds + tens = 10
3. ones digit is one more than the tens digit
4. 2/3 of the digits are odd.
5. hundreds digit is greater than the tens & ones digits

Step 3:

Other players make guesses. All players determine if the guess matches each clue.
