

# Tens Go Fish

**Playing the game:**

Tens Go Fish is played much like the children's game, Go Fish, except the objective of Tens Go Fish is to reinforce combinations of 10. Some children find the missing addend aspect of the game a challenge.

**Materials:** Deck of Number Cards 0-10 (four of each) with the wild cards removed

**Players:** 2 to 4

**How to Play**

The object of the game is to get two cards that total 10.

1. Each player is dealt five cards. The rest of the cards are placed face down in the center of the table.
2. If you have any pairs of cards that total 10, put them down in front of you and replace those cards with cards from the deck. Record the equation on the form.
3. Take turns. On a turn, ask one player for a card that will go with a card in your hand to make 10.
4. If you get a card that makes 10, put the pair of cards down. Take one card from the deck. Your turn is over. If you do not get a card that makes 10, take the top card from the deck. Your turn is over. If the card you take from the deck makes 10 with a card in your hand, put the pair down and take another card.
5. If there are no cards left in your hand but still cards in the deck, you take two cards.
6. The game is over when there are no more cards.
